Google Doc: About this survey

Google Form: Submit an entry for review

[1] This informoation is collected for only Galleries and Museums with "All eligible data" open access scope

Fee shown is based on the charge for adults. Institutions with different prices for non-local adults are higlighted in orange.

[2] Many GLAMs make some – but not all – of their eligible data open access (e.g. for specific projects or outputs) whilst maintaining non-open access policies for most of their data.

This column indicates this for each GLAM by stating either 'all eligible data' or 'some eligible data'.

[3] All dates in year format e.g. 2020 and please citation URLs as a Note in the relevant cell.

Citations of GLAMs' own communications (e.g. a press release) are preferred but 3rd party websites are OK if nothing else is available.

- [4] GLAM policy statements are often conflicting, subject to change and do not expressly disclaim copyright. To provide some clarity for survey users, this column contains links to the most relevant rights policy and terms of use information provided on GLAM websites (when available). These pages are often generic and lacking in detail so caveat emptor.
- [5] The rights statement that the GLAM applies to its metadata (often not stated explicitly).

All metadata submitted to Europeana must be provided as CC0 therefore GLAMs publishing open data in Europeana have CC0 marked in this column.

- [6] It doesn't have a machine readable statement but states "Los libros, documentos e imágenes de la sección Catálogo y Biblioteca Digital pertenecen al dominio público." (Evelin Heidel)

- [42] Comment from proposer: 'These are the rights, licenses, and APIs that govern our numismatic collection. Our digital library and archives have similar open licenses, but different sets of APIs. Nomisma.org is not included in this, being a separate collaborative project, but still implemented by the American Numismatic Society.'
